

Nezar Saab Abouhamdan

+971 58 566 0800 | nwa200079@gmail.com | United Arab Emirates, Dubai

Summary

Experienced software developer skilled in designing, developing, and maintaining robust software applications and web sites and web applications . Proficient in multiple programming languages and frameworks, with a strong track record of delivering high-quality solutions. Strong problem-solving and teamwork abilities, committed to continuous learning and staying up-to-date with industry trends.

Education

Damascus, Syria

Arab International University (AIU) – B.S. in Software Engineering 2019 – July 2023

Experience

Xcore Corporation | Sweida, Syria

React JS Developer | 08/2021 - 05/2023

1. Frontend Development: Design and develop interactive user interfaces using ReactJS, HTML, CSS, and JavaScript.
2. Component Development: Build reusable and modular components following React best practices to ensure code efficiency and maintainability.
3. State Management: Implement state management libraries such as Redux or Context API to manage and synchronize application state.
4. UI/UX Implementation: Translate UI/UX designs and wireframes into functional React components, ensuring a seamless and visually appealing user experience.
5. API Integration: Integrate with backend APIs using fetch, Axios, or other HTTP client libraries to retrieve and update data from the server.
6. Responsive Design: Develop responsive web applications that adapt to different screen sizes and devices, ensuring optimal user experience across platforms.
7. Performance Optimization: Optimize application performance by implementing techniques such as code splitting, lazy loading, and caching.
8. Cross-Browser Compatibility: Ensure compatibility of the application across different web browsers, addressing browser-specific issues when necessary.
9. Version Control: Use Git to manage source code, track changes, and collaborate with other developers.
10. Continuous Learning: Stay updated with the latest ReactJS trends, best practices, and emerging technologies to enhance skills and contribute to continuous improvement efforts.
11. Agile Development: Participate in agile development methodologies such as Scrum or Kanban, including attending sprint planning, daily stand-ups, and retrospective meetings.

Freelance | Dubai, United Arab Emirates

Software Engineer | 01/2018 - 07/2023

1. Client Communication: Engage in regular communication with clients to understand their project requirements, discuss progress, and provide updates. This includes participating in meetings, gathering feedback, and addressing any concerns or questions.
2. Application Development: Develop mobile applications using the Flutter framework and web applications using React.js. This involves writing clean and efficient code, implementing features and functionality, and ensuring the applications meet the client's specifications and design requirements.
3. Cross-Platform Development (Flutter): Utilize the Flutter framework to build cross-platform mobile applications for both Android and iOS platforms. Leverage Flutter's capabilities to develop responsive and visually appealing user interfaces, implement business logic, and integrate with backend services.
4. Front-End Development (React.js): Build interactive and dynamic user interfaces for web applications using React.js. Implement UI components, handle state management, and interact with backend APIs to create robust and scalable applications.
5. Code Writing: Write clean, efficient, and well-documented code following software development best practices and coding standards.
6. Continuous Improvement: Stay updated on emerging technologies, industry trends, and software development practices to enhance skills and contribute to continuous improvement efforts.

7. Troubleshooting and Support: Investigate and resolve software defects, troubleshoot issues, and provide technical support to end-users as needed.
8. Agile Development: Participate in agile development methodologies (e.g., Scrum, Kanban), including sprint planning, daily stand-ups, and retrospective meetings.

ACHIEVEMENTS

Receiver of:

- Recipient of the distinguished Arab international university Dean's List Award in 2019 for outstanding academic achievement.
- Al Shola Private School Student Excellence Award for top achievers

Skills

ReactJS, HTML, CSS, JavaScript, MySQL, MongoDB, Rest-api, MVVM, MVC, MVP, VS Code, Dart, Git, GitLab, Web Development, Android, Styled-components, Framer-motion, Redux, Express.js, Node.js, React.js, OOP, Vue.js
